

Din Ho

Software Engineer

SUMMARY

Creative, detail-oriented, full-stack software engineer with a deep interest in Web Development. Built and implemented successful front and back end web applications. Looking to bring my skills to a tech company with global reach and learn from a team of professionals.

WORK EXPERIENCE

Software Engineer at 100Devs | Los Angeles, CA Jan 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured full stack web applications.
- Applied agile methodologies like SCRUM for project management.

Recent Projects:

- **Precrastinator (Full-Stack Web App)** – A full-stack app to boost productivity by enabling user to create a list of tasks that they can finish in pomodoro intervals. It's built using the MVC architecture with auth implemented for user creation and personalization.
 - Link: <https://precrastinator.herokuapp.com/>
- **Portfolio Website (HTML, CSS, JavaScript)** - An online portfolio representing some of my works with general information about myself and my services including a functional contact form to connect with me. The website is responsive and accessible on mobile devices.
